1. Brooks Bill Exemption

        Management Staff was informed by the Office of General
Counsel that the President has signed legislation which includes
the CIA Brooks Bill exemption. This exemption, in practice,
should eliminate the requirement for CIA to obtain National
Bureau of Standards (NBS) approval to waive specific Federal
Information Processing Standards (FIPS). In addition, the
exemption removes the statutory authority of the General Services
Administration (GSA) to audit CIA ADP procurement. (U/AIUO)
